9. Program brief:

As part of its commitment to experiential learning and sustainable development, Srusti Academy of Management and Technology (Autonomous), Bhubaneswar organized an educational visit to Centurion University of Technology and Management (CUTM), Bhubaneswar. A total of 24 BBA and BCA students, accompanied by Mr. S. D. Dash and Ms. Madhusmita Nayak, participated in the programme designed to enhance awareness of the United Nations Sustainable Development Goals (SDGs).

The visit commenced with an engaging orientation session conducted by Mr. Sangram of CUTM, who highlighted the importance of the SDGs, responsible consumption, the circular economy, waste reduction, and environmental stewardship. The students then undertook a guided tour of CUTM's sustainability initiatives, including the Herbal Garden, Waste-to-Wealth Laboratory, Bio-Enzyme Laboratory, and Bio-Waste Conversion Unit. They observed practical demonstrations on medicinal plants, paper recycling, eco-brick production, bio-enzyme preparation from fruit waste, vermicomposting, composting, and biogas generation.

The programme provided valuable hands-on exposure to sustainable technologies and innovative waste management practices, fostering environmental awareness and entrepreneurial thinking among the participants. The visit effectively bridged classroom learning with real-world applications of sustainability and inspired students to become responsible contributors to a greener future. Srusti Academy extends its sincere gratitude to CUTM for facilitating this enriching educational experience.
